Thank you for your interest in making an appointment for either a tattoo or piercing service.

Our policies are as follows:

If you are interested in a consultation for a tattoo or piercing, you do not need an appointment, you may come by at your convenience.

You are always welcome to try and come by for a tattoo or piercing as a walk-in, but it is recommended that you call ahead to see if we already have a full schedule or not.

All walk-ins are taken on a first come first serve basis; calling ahead will not guarantee you a spot.

If you do want to schedule an appointment, that is fine too, all appointments will be taken under the following conditions:

1. You need to come by the shop physically so we can see the exact design, size and placement. This is the only way to schedule a tattoo since some take 10 minutes and some take 10 hours.
2. When a design and price is established you will need to pay a deposit of 1/2 the cost of the tattoo in order to hold your place in the schedule. We do not charge for custom drawings, we just require the deposit to start on them. The deposit will be credited towards your tattoo, but is non refundable if you don't come in for your scheduled appointment time. If there is a need for you to change your appointment time, you must call within 24 hours prior to your appointment and your deposit can be applied to another day. This is a one-time courtesy.
3. Same day appointment, no refunds for cancellations can be given as we have already committed that time for you and didn't take any other people in that time spot held for you.
4. If you arrive more than 15 minutes late for your appointment you will lose your deposit. You may reschedule, but will have to pay another deposit to do so. Please be courteous of other client's time and the artists at 805 ink.

Before the Appointment Checklist

- Make sure you have eaten something within the previous 2-3 hours before your appointment to avoid getting dizzy or fainting. Also, drink plenty of fluids before hand.
- Allow plenty of time for the tattoo or piercing procedure. Don't set a time limit.
- You will need a valid ID before any tattooing or piercing takes place.
- Where comfortable clothing that can be easily adjusted or removed if necessary. Also wear clothes that you don't mind if they get ink stains on.
- Do not consume any medications that will cause your blood to thin or consume alcohol before your appointment.
